Anonymous information is information that cannot be connected to the identity of a specific individual. Personally identifiable information is information that specifically identifies a particular user, such as name, address, or phone number. An example of anonymous information is the fact that, while this website may record the number of visits to a particular page that occur in a given period of time, it does not necessarily tell us the names or other identifying information of every visitor. Many users of the Website will choose not to provide any personally identifiable information; therefore, those individuals are anonymous to us, and any data collected about their use of this website is anonymous information.

All of the information that is automatically submitted to us by your browser is considered anonymous information.
